***Kentucky Health* discusses new advances in cardiac care**

FOR RELEASE: Oct. 8, 2020

Dr. Wayne Tuckson talks about new advancements in cardiac care with his guest, cardiologist Dr. Amir Piracha. They discuss the use of small catheters, introduced into the heart through a peripheral artery or vein, in procedures such as removing clots for those with pulmonary embolisms, opening blockages in a coronary artery and the placement of devices to facilitate better monitoring of heart function.

Kentucky Health: Interventional Cardiology: Micro Techniques, Macro Results airs Sunday, Oct. 11 at 12:30 pm/11:30 am on KET.

Kentucky Health is a weekly KET program that seeks to improve the people's health through education and increased awareness. *Kentucky Health* is hosted by Dr. Wayne Tuckson, a colorectal surgeon in Louisville, and produced by Laura Krueger.

KET is Kentucky's largest classroom, where learning comes to life for more than one million people each week via television, online and mobile. Learn more about Kentucky's preeminent public media organization at KET.org, on Twitter [@KET](https://twitter.com/KET) and at facebook.com/KET.
