‘Kentucky Health’ discusses pancreatic cancer and the challenges of detection

FOR RELEASE: Jan. 19, 2021

Dr. Wayne Tuckson speaks with Dr. Michael Egger, M.D., program leader at Cancer Control and Care with the James Graham Brown Cancer Center at the University of Louisville, about pancreatic cancer and how difficulties in early detection and intervention have contributed to making it one of the deadliest forms of cancer today.

The episode *Kentucky Health: Pancreatic Cancer: Uncommon but Deadly* airs Sunday, Jan. 31, at 12:30 pm/11:30 am on KET and Monday, Feb. 1, at 2/1 pm on KET2.

Kentucky Health is a weekly KET program that seeks to improve the people’s health through education and increased awareness. *Kentucky Health* is hosted by Dr. Wayne Tuckson, a colorectal surgeon in Louisville, and produced by Laura Krueger.

KET is Kentucky’s largest classroom, where learning comes to life for more than one million people each week via television, online and mobile. Learn more about Kentucky’s preeminent public media organization at KET.org, on Twitter [@KET](https://twitter.com/KET) and at facebook.com/KET.
